

# ANTH UNDERGRADUATE COURSES | SPRING 2017

Anthropology at Colorado State University focuses on providing undergraduate students with an understanding of people and their cultures, past and present, related to the structure of the social, environmental, political and economic systems in which humans operate.

### ANTH 100 Introductory Cultural Anthropology (3 Credits)

Human societies and their cultural setting; variation in beliefs, social customs, and technologies; human differences in anthropological terms.

SEC 1:TR 9:30-10:45am	CLARK A 205	Dr. Adrienne Cohen
SEC 2:MWF 12-12:50pm	CLARK A 206	Mr. Patrick Dorion
SEC 3:MWF 9-9:50am	WAGAR 232	Mr. Patrick Dorion

### ANTH 120 Human Origins and Variation (3 Credits)

Mechanisms of evolution; genetics. Living primate biology, behavior, and history. Human evolutionary history. Human variation and adaptation.

SEC 1:TR 9:30-10:45am	CHEM A 101	Ms. Kimberly Nichols
SEC 2:MWF 10-10:50am	CLARK A 204	Dr. Connie Fellmann
SEC 3:M 3-4:55pm	EDDY 118	Dr. Kimberly Nichols

### ANTH 121 Human Origins and Variation Lab (1 Credit)

Labs demonstrating genetic and evolutionary processes, comparative skeletal anatomy, human evolution through fossil casts, and modern human variation.

LAB 1:W 1-2:40pm	CLARK C 249	Mr. Elliot Hubbard
LAB 2:R 1-2:40pm	CLARK C 249	Ms. Emily Orlikoff
LAB 3:T 1-2:40pm	CLARK C 249	Ms. Emily Orlikoff
LAB 4:T 9-10:40am	CLARK C 249	Mr. Elliot Hubbard
LAB 5:R 9-10:40am	CLARK C 249	Ms. Emily Orlikoff
LAB 6:W 9-10:40am	CLARK C 249	Ms. Reecie Dern
LAB 7:W 11am-12:40pm	CLARK C 249	Mr. Elliot Hubbard
LAB 8:F 9-10:40am	CLARK C 249	Ms. Reecie Dern
LAB 9:F 11am-12:40pm	CLARK C 249	Ms. Reecie Dern

### ANTH 140 Introduction to Prehistory (3 Credits)

Origins of human society from the Stone Age to urban civilization using architecture, art, tools, and other material remains.

SEC 1:MWF 1-1:50pm	CLARK A 204	Dr. Richard Adams
SEC 2:TR 9:30-10:45am	CLARK A 204	Dr. Jason LaBelle
SEC 3:MWF 11-11:50am	CLARK C 146	Dr. Richard Adams

### ANTH 200 Cultures and the Global System (3 Credits)

Analyze diversity, cultural responses, and adaptations of smaller-scale societies to emerging global trends.

SEC 2:TR 9:30-10:45am	ART F 101	Dr. Kathleen Pickering
SEC 3:TR 11am-12:15pm	CLARK A 205	Dr. Suzanne Kent

# ANTH UNDERGRADUATE COURSES | SPRING 2017

## **ANTH 315 Global Mobilities: The African Diaspora (3 Credits)**

Globalization and transnationalism with a focus on the circulation of people, ideas, and cultural products and practices between Africa and the rest of the world. By situating Africans as both producers and consumers of transnational ideas and products, we will develop an understanding of Africa beyond popular representations of violence and crisis.

SEC 1:TR 12:30-1:45pm

CLARK C 363

Dr. Adrienne Cohen

## **ANTH 330 Human Ecology (3 Credits)**

Roles of technology, economics, social organization, and ideology in human adaptations to and survival in natural and cultural environments.

SEC 1:TR 12:30-1:45pm

CLARK C 360

Dr. Kathleen Galvin

## **ANTH 335 Language and Culture (3 Credits)**

Human language and primate communication, nonverbal channels, sociolinguistics, and language change.

SEC 1:MW 4-5:15pm

CLARK C 358

Dr. Katherine Browne

## **ANTH 352 Geoarchaeology (3 Credits)**

Analytical techniques, concepts, and field methodologies from the earth sciences to better understand the archaeological record.

SEC 1:TR 9:30-10:45am

CLARK C 360

Dr. Andrew Bliss

## **ANTH 365 Quantifying Anthropology (3 Credits)**

Managing, quantifying and illustrating anthropological data-sets with appropriate software.

SEC 1:MW 10-11:15am

CLARK C 243A

Dr. Michael Pante

## **ANTH 370 Primate Behavior and Ecology (3 Credits)**

Behavioral patterns, ecological relationships, and communication of nonhuman primates.

SEC 1:TR 2-3:15pm

WALNT 103

Ms. Kimberly Nichols

## **ANTH 375 Evolution of Primate Behavior (3 Credits)**

Primate behavior from an evolutionary perspective, drawing on a variety of studies of humans, primates, and mammals.

SEC 1:MWF 12-12:50pm

EDDY 5

Dr. Melissa Raguet-Schofield

## **ANTH 378 Bipedal Apes (3 Credits)**

Human bipedal walking within a comparative framework of primate locomotion and anatomy. Specific focus is on kinematics and kinetics of soft- and hard-tissues including analysis of extant primate locomotion, morphology, and development. Discussions focus on debates in primate functional anatomy and locomotion including hypotheses surrounding the origins and evolution bipedal walking and running and possible maladaptations of being a human biped.

SEC 1:TR 11:15-12:30pm

CLARK C 249

Dr. Connie Fellmann

# ANTH UNDERGRADUATE COURSES | SPRING 2017

## **ANTH 413 Indigenous Peoples Today (3 Credits)**

Contemporary cultural and social issues of indigenous peoples around the globe, including North and South American Indians and Australian Aborigines.

SEC 1:TR 2-3:15pm

WALNT 109

Dr. Kathleen Pickering

## **ANTH 423 Cultural Psychiatry (3 Credits)**

Social determinants of mental health. Cross-cultural health and healing. Cultural contexts of U.S./Western and Indigenous/non-Western psychiatries.

SEC 1:TR 11am-12:15pm

EDDY 102

Dr. Jeff Snodgrass

## **ANTH 441 Methods in Cultural Anthropology (3 Credits)**

Methodological orientations and research techniques. Ethnographic and cross-cultural approaches including quantitative and formal models.

SEC 1:MW 5:30-6:45pm

CLARK C 213

Dr. Katherine Browne

## **ANTH 450 Hunter-Gatherer Ecology (3 Credits)**

Development of anthropological method and theory; study of contemporary and prehistoric foraging peoples.

SEC 1:TR 12:30-1:45pm

CLARK C 359

Dr. Jason LaBelle

## **ANTH 452 Archaeology of Mesoamerica (3 Credits)**

Ancient cultures and civilizations in Middle America.

SEC 1:TR 11am-12:15pm

MILSC 105

Dr. Christopher Fisher

## **ANTH 472 Human Biology (3 Credits)**

Human biological responses to environmental conditions and constraints including diet, nutrition, disease, climate, culture change, and urbanization.

SEC 1:TR 9:30-10:45am

GIFRD 149

Dr. Connie Fellmann

## **ANTH 475 Methods of Analysis in Anthropology (3 Credits)**

Practical discussion of techniques used to reconstruct dietary and locomotor behavior and evolutionary relationships in human fossil remains.

SEC 1:M 1-3:50pm

GSB 350

Dr. Michael Pante

## **ANTH 478/HIST 478 Heritage Resource Management (3 Credits)**

Cultural resource laws and policy; practices commonly employed in management and preservation of these diverse resources.

SEC 1:MWF 2-2:50pm

EDDY 8

Dr. Sarah Payne

## **ANTH 479 International Development Theory and Practice (3 Credits)**

Contemporary issues in international community and economic development, with practical and theoretical analysis from interdisciplinary perspectives.

SEC 1:R 5:30-8:10pm

CLARK C 361

Dr. Suzanne Kent

# ANTH UNDERGRADUATE COURSES | SPRING 2017

**ANTH 492A Archaeology Seminar (3 Credits)**

Archaeology of Death.

SEC 1:TR 2-3:15pm

ENGRG E 106

Dr. Christopher Fisher

**ANTH 493 Capstone Seminar (1 Credit)**

Linkages between anthropological subfields and how professional anthropologists approach issues.

SEC 1:W 9-9:50am

CLARK C 146

Dr. Melissa Raguette-Schofield
