**DISABILITY SUPPORT SERVICES INFORMATION**

Resources for Disabled Students (RDS) recognizes that disability reflects diverse characteristics and experiences and is an aspect of diversity integral to society. To that end, we collaborate with students,

instructors, staff, and community members to create useable, equitable, inclusive and sustainable learning environments. RDS is also committed to supporting Colorado State University as a non-discriminating environment for qualified students with disabilities.

The mission is fulfilled through three specific goals: to provide accommodation, awareness, and advocacy. These goals are to ensure equal access for all qualified students with disabilities. All activities of RDS are related to fulfilling these goals in support of a campus environment that is not discriminatory based solely on the presence of a disability.
