

# THERE'S A **CHOIR, BAND & ORCHESTRA** FOR YOU AT CSU

At CSU, there are four ensembles open to all majors that do not require an audition to be a member. Students in these ensembles come from biological sciences, business, engineering, computer sciences, English, political science, zoology, and music. Simply register and show up.

If you don't have an instrument with you on campus, don't worry! Many instruments are available for rental.

The positive environment has provided student Stephanie Lane with many performance opportunities, fantastic memories, and chances to meet new people. "It is incredible that even though we are all studying different majors, we are still united through music and through the hard work we put into it," she said.

Lane hopes more students will discover reasons to continue in music. "I love concert band where it's low-stress and super fun," she said enthusiastically, "Continuing music in college is something I encourage everyone to do!"

Information about all non-auditioned and auditioned ensembles is at [music.colostate.edu/auditions](https://music.colostate.edu/auditions)
