POSTDOCTORAL & GRADUATE RESEARCH TRAINING/EXPERIENCE

Contested Illnesses Research Group, Brown University

Mentor: Phil Brown, Brown University, Dept. of Sociology and Center for Environmental Studies

Founder, Natural Resources Research Collaborative, Brown University

Myself and several colleagues collaborate, design studies, and share research approaches and findings about on-going natural resource-related sociological and environmental inquiries.

Postdoctoral Research Program:

Hydrofracking Hysteria: Agricultural Social Movements and Hydraulic Fracturing in Pennsylvania. (IRB #1204000609). *Conducted March 2012- 2013.*

Independent Research Agendas During Graduate Training:

Research conducted for PhD dissertation entitled *The Paradox of Uranium Development: A Polanyian Analysis of Social Movements Surrounding the Piñon Ridge Uranium Mill*. Conducted Aug. 2010-March 2011. Included: survey design and implementation, data analysis, in-depth interviews, archival and historical analysis.

Research conducted for thesis entitled *Left in the Dust: The Victims of Mill Tailings Exposure and Uranium in Monticello, Utah*. Conducted Summer 2006-Winter 2007. Included conducting interviews, data transcription and analysis, documentary analysis, and participant observation.

Projects as Graduate Research Assistant (Primary GRA):

“Social Implications of Sustainable Agriculture and Alternative Food Movements: An Overview.” (Principal Investigator: Dr. Peggy Petrzalka), Utah State University Agricultural Experiment Station Project # A00850, Utah State University, *Winter 2009-August 2011*.

“Community Power in Natural Resource Decision-Making: The Designation of Grand Staircase-Escalante National Monument.” (Principal Investigator: Dr. Peggy Petrzalka), Utah State University Agricultural Experiment Station Project # A00850, Utah State University, *Fall 2009 – Winter 2009*.

“Population and Community Development in the West.” (PI: Dr. Don Albrecht). Western Rural Development Center, Utah State University, *Summer 2009 – Summer 2010*.

“Gateway Communities and Neighboring Public Lands: Examining the Relationship.” (Principal Investigator: Dr. Peggy Petrzalka). Utah State University Agricultural Experiment Station Project #UTA00850, Utah State University, *Spring 2009*.

“Quality of Work Life Among University Faculty.” (Principal Investigator: Dr. Ronda Callister), National Science Foundation’s Advance Program for Gender Equity, Utah State University, *Summer 2007-Spring 2009*.

“Sustainable Development in Utah.” (Principal Investigator: Dr. Sandy Marquart-Pyatt), Utah State University, *Spring 2009*.

“Green Entrepreneurship as a Method to Manage Natural Resources.” (Principal Investigator: Dr. John Allen), Western Rural Development Center, Utah State University, *Summer 2006*.

“Decision-Making Processes on Amenity-Based Development and Impacts upon Overall Community Well-Being” (Principal Investigator: Dr. Peggy Petrzeka), Utah State University Agricultural Experiment Station Project #UTA00840, Utah State University, *Fall 2005- Spring 2007*.

COMMUNITY OUTREACH

The Alliance Center and the Regenerative Recovery Coalition, Colorado, United States, (2021-Present)

I consult and provide EJ trainings for the Center and Coalition, which focus on lobbying legislators for policies focused on just energy transitions in Colorado and the building of more regenerative systems.

Divest CSU (2022-Present)

I have met with this group to provide feedback and guidance on their approach to divestment campaigns and their lobbying efforts.

Genetic Justice, LLC, United States. (2021-Present).

I consult for this LLC arm of a legal firm that pursues environmental contamination cases.

350 Colorado, Colorado, United States (2020-Present)

I consult with leaders in 350 Colorado about ongoing oil and gas development, their lobbying efforts, and legislation and regulatory issues in the state, from an environmental justice perspective.

Save Rural Northern Colorado, Northern Colorado, CO, United States. (2019 - Present).

I consult for Save Rural NoCo about community organizing, environmental justice and health, and the NISP and Glade Reservoir Projects.

LOGIC (League of Oil and Gas Impacted Communities), Front Range, CO (2017 - Present).

I work consistently with community groups through LOGIC, aiding in understanding and advising on impacts of unconventional oil and gas production

Cultivando, Commerce City, CO (2020- Present)

I work with this community organization out of Commerce City, Colorado, which has organized around pollution exposure from the Suncor Refinery, Interstate 70, and legacy pollution from heavy industry and toxic contamination. Most recently, we collaborated on a grant for CDPHE’s CfP for community-based research on the impacts of the Suncor facility.

Larimer Alliance for Health, Safety, and Environment, Larimer County, CO (2019-Present)

I frequently consult for this group, which is a coalition of northern Colorado community organizations fighting for local control over unconventional oil and gas production. I give talks, consult on their programming decisions, field questions via email, and give feedback on their strategic initiatives and media/publications.

Concerned Citizens of Renfrew County and Area, Ottawa Valley, Canada (2020- Present)

I provide feedback and research consultation for this group, which work on environmental justice issues surrounding old and new uranium production.

FracTracker Alliance, United States (2020-Present)

I consult with the researchers, data analysts, and web designers who have made the FracTracker Alliance maps, databases, and websites. These monitor and map unconventional oil and gas activity around the United States to aid communities and members of the public in accessing data about the activity and its impacts.
